Profile

Eager Front End developer with experience building websites, landing pages, and single-page applications, concerned about assembling intuitive, visually appealing, and scalable web applications. With a solid foundation in HTML, CSS, and JavaScript. And a strong focus on user-facing implementation, mainly using ReactJS.

A proactive person, analytical with a can-do attitude, and a creative problem-solver, with a taste for constantly learning new skills.

I have consistently received praise from team members and clients for my ability to collaborate effectively and compromise in delivering high-quality results.
